

HEAVY RAIN INC.
BLOW WIND BLOW

Rays of light
Heat me up
Through the morning haze
'Left the riverside
Where many people cried
For their fight with blaze

I wish I paid
By the hangman's blade
For all my sins and faults
But I escaped
And it's now my fate
To count the waves 'till dawn

Blow wind blow
Take away my soul
And you mighty sky
Give me just one more try
To see my woman's smile

Two years faraway from my family
With the eyes of my son
Written in my memory
When the day is gone
Me and the night alone
At the never-ending sea

Blow wind blow
Take away my soul
And you mighty sky
Give me just one more try
To say them all goodbye

Blow wind blow
Take away my soul
And you mighty sky
Give me just one more try
To say them all goodbye
To say them all goodbye
To say them all goodbye
