

HEAVY RAIN INC.
MY WORLD

Because my mind has carried on
With the girl from Albion
Because my eyes weren't closed
When her message hit my bones

Because her lips kindly hum
With the rhythm of the drums
'Cause there's a glitter on my hand
I should better make an end

My world plays with you my babe
My world feels the same my babe
I've crashed my plane
But the flames still burn me
I've scratched my name
Out of the damned who are yearnin'

I've scratched my name
Out of the damned who are yearnin'
I've scratched my name
Out of the damned who are yearnin'

Six days I was pretty bad
On the seventh I raised my head
I won't die I won't fall
'Cause I'm taught in Rock 'n' Roll

My world plays with you my babe
My world feels the same my babe
I've crashed my plane
But the flames still burn me
I've scratched my name
Out of the damned who are yearnin'

My world plays with you my babe
My world feels the same my babe
I've crashed my plane
But the flames still burn me
I've scratched my name
Out of the damned who are yearnin'
